

Environmental and Sustainability Policy

Borr Drilling is strongly committed to conducting our business fairly, ethically and in compliance with all relevant laws and regulations. We are committed to protecting our social and natural environment in the areas in which we operate.

Borr Drilling commits to:

Environment:

- ▷ Establishing environmental and sustainability goals and objectives, and continuously monitoring our performance.
- ▷ Prevention of pollution and reporting and investigating all environmental spills including effective implementation of drainage and discharge system management plans.
- ▷ Responsible waste management through segregation, reuse, recycling, and waste minimization efforts.
- ▷ Energy management and greenhouse gas emission reduction through the use of energy-efficient equipment and practices.

Social

- ▷ Respecting human rights and operating in strict compliance to applicable regulatory frameworks and best business practices.
- ▷ Facilitating equal opportunities and a non-discriminating working environment.

Governance

- ▷ Complying with internal protocols, applicable laws and regulations, while promoting internal practices that enhance our performance.
- ▷ Developing and continually improving our environmental management system.
- ▷ Ensuring assets operate as intended and maintaining operational integrity and standard of performance.
- ▷ Transparency in the reporting of our sustainability performance and initiatives.
- ▷ Sustainable supply chain practices through ethical procurement of products and services, and sustainability assessment of suppliers.
- ▷ Raising awareness of our personnel on environmental and sustainability through training and other internal communications.
